4. Notification Number

2005/0534/E - I40

5. Title

Draft Royal Decree adopting the Supplementary Technical Instruction MI IP 06 "Procedure to remove liquid petroleum storage tanks from service"

6. Products Concerned

Tanks that have contained liquid petroleum products and are left out of service.

7. Notification Under Another Act

-

8. Main Content

It aims to regulate the actions that must be carried out on tanks that are out of service and tanks that will be removed from service and that during their working life were intended for storing liquid petroleum products.

The Supplementary Technical Instruction indicates the steps to be followed for decommissioning, which are: preparing the environment, opening the manhole, degassing the tank, cleaning and degassing residues, access to the interior, cleaning the interior, extracting and environmental management of residues and cleaning materials, measuring the explosive atmosphere and visual inspection, refilling or extracting the tank, stamping installations and land consolidation.

9. Brief Statement of Grounds

There are storage tanks for liquid petroleum products that, due to having out-lived their working life, or because of their degree of deterioration, or through necessity or for any other reason, must be decommissioned, in which case, necessary measures must be taken to ensure that the risk to installations, people and the environment is minimised when carrying this out.
