4. Notification Number

2014/0355/UK - B10

5. Title

The Public Water Supplies(Scotland) Regulations 2014

- regulation 33 (application and introduction of substances and products)
- regulation 34 (use of processes)

6. Products Concerned

Chemicals, construction products and treatment processes used in contact with, or in the treatment of, water intended for human consumption and domestic purposes i.e. washing, drinking, food production etc.

7. Notification Under Another Act

-

8. Main Content

The Public Water Supplies (Scotland) Regulations 2014 aim to protect human health from the adverse effects of any contamination of water supplied by Scottish Water (a Scottish public authority) for human consumption purposes by ensuring that it is wholesome. In so far as these Regulations apply to water supplied by Scottish Water for human consumption purposes, they include measures necessary to deliver the requirements of Council Directive 98/83/EC on the quality of water intended for human consumption ("the Drinking Water Directive").

A draft is being communicated in accordance with Directive 98/34/EC on the basis that Part 9 of these Regulations (see regulations 33 and 34) contains provisions which constitute 'technical regulation' under that Directive. Part 9 makes provision for the control of the application and introduction of substances and products and use of processes in relation to water supplied by Scottish Water for human consumption purposes. In particular, regulation 33(2) provides that a substance or product which bears an appropriate CE marking or conforms to an appropriate standard of an EEA state may be applied or introduced subject to dosing restrictions etc. The provisions in Part 9 help to ensure that the requirements of the Drinking Water Directive are met.

9. Brief Statement of Grounds

The provisions in Part 9 of the draft Regulations (see regulations 33 and 34) are intended to ensure that Scottish Water does not apply or introduce substances and products or use process in relation to water supplied for human consumption purposes that will have a detrimental impact on the quality of drinking water and/or cause a risk to human health.

10. Reference Documents - Basic Texts

No Basic Text exists

11. Invocation of the Emergency Procedure

No

12. Grounds for the Emergency

-

13. Confidentiality

No

14. Fiscal measures

No

15. Impact assessment

No impact assessment available

16. TBT and SPS aspects

TBT aspect

No - The draft has no significant impact on international trade

SPS aspect

No - The draft is not a sanitary or phytosanitary measure
