8. Main Content

This Order amends the Order of 8 September 1999 implementing Article 11 of amended Decree no. 73-138 of 12 February 1973, implementing the Act of 1 August 1905 on deception and adulteration in the area of processes and products used to clean materials and objects intended to come into contact with foodstuffs, products and drinks for human and animal consumption.

It principally consists in the following measures: updating of the list of constituents in the Annex on the basis of favourable opinions from the National Scientific Agency, removal from the list of constituents which may de facto no longer be used regarding the provisions of the regulations on biocides, and the removal of substances newly classified in CMR (Carcinogenic, Mutagenic, reprotoxic) categories 1 and 2 in accordance with Article 11 of Decree no. 73-138 of 12 February 1973.

This Order also repeals the Order of 2 January 2003 on plastic materials and objects in contact with or intended to come into contact with foodstuffs, food products and drinks, Commission Regulation (EU) No. 10/2011 of 14 January 2011 being the applicable text concerning plastic materials and objects since 1 May 2011.

This amendment shall above all begin with an update, in accordance with Community law in force, relating to

biocidal substances and the addition of constituents for which the National Scientific Agency has issued a positive opinion.

9. Brief Statement of Grounds

In order to improve the clarity of the law, this revision of the Order of 8 September 1999, beyond editorial changes, concerns the removal of substances which may no longer be used regarding the 'biocide' regulations and the addition of constituents which have obtained favourable evaluation from the National Scientific Agency. Substances newly classified in CMR categories 1 and 2 shall also be removed in accordance with I of Article 11 of amended Decree no. 73-173. This also applies to certain substances subject to usage restrictions under Annex XVII of Regulation (EC) no. 1907/2006, known as REACH.
