## 8. Main Content

These draft regulations contain the radio regulatory and technical requirements which are necessary to protect other users of the radio spectrum from harmful interference. They also facilitate the efficient sharing of the radio spectrum, which is a limited natural resource, between competing communication services. These regulations are a revision of a previous notified specification, see item 9 below.

## 9. Brief Statement of Grounds

This notification is of a revision to a previously notified standard MPT 1349 issued in July 1992. This revision is required to allow for the introduction of Closed Circuit Video Links at 1.394 GHz., an increase in power in the 2.45 to 2.55 GHz band up to 500 milliwatts and removal of the restriction of 'indoor use only'. , the removal of the 2.445 to 2.475 GHz band using spread spectrum techniques, since the ETS 300 328 has been adopted., and the re-introduction of the 13.4 to 14 GHz band.
