5. Title

Order on the provisions applicable in relation to the search for trichina larva and the management of trichinellosis cases

6. Products Concerned

The draft text is applicable, on the one hand, to pig breeders and to slaughterhouse operators, and, on the other, to inspection services and analysis laboratories approved for the search for trichina larvae.

7. Notification Under Another Act

d) Other Directive or Regulation:

Regulation (EC) No 854/2004 of the European Parliament and of the Council of 29 April 2004

Regulation (EC) No 2075(2005) of the Commission of 5 December 2005.

8. Main Content

The draft text provides certain clarifications on the methods for carrying out analyses in the search for trichina larvae in the meat of sensitive species, as laid down in Regulation (EC) No 2075/2005. In particular, this draft lays down provisions relating to the authorisation of off-land breeding sites for meat-type pigs and the measures to be taken in the event of the discovery of a positive case.

9. Brief Statement of Grounds

The above-mentioned regulation is directly applicable but only provides for the adoption of national provisions, either in order to clarify certain provisions such as the emergency plan in the event of positive cases, or within the framework of the derogations provided for in the regulation such as the implementation of pig-breeding authorisations as an alternative to systematic analysis of off-land meat-type pigs. It also appears necessary to clarify certain points relating to the organisation of the implementation of the regulation, in particular to provide clarifications of the methods for sampling and the forwarding of samples to approved laboratories, and to define the national reference laboratory.

10. Reference Documents - Basic Texts
