8. Main Content

Dry cleaning installations are the classified installations listed under section 2345, currently regulated by the ministerial order of 2 May 2002. The draft of the new order aims to strengthen the regulation of "dry cleaning" installations, particularly in order to ensure compliance with Directive 99/13/EC, by laying down, in particular, provisions relating to:

- Certain requirements requiring definition, in particular concerning ventilation and the obligation for the permanent operation of installations.
- The reinforcement of the technical requirements applicable to machines, accompanied by the introduction of an alternative to the NF certification of the machine.
- The obligation for periodic inspections of dry cleaning workshops.
- Staff training.

9. Brief Statement of Grounds

This draft order strengthens regulations to ensure compliance with Directive 99/13/EC, whilst taking account of a request from the European Commission to amend the order of 2 May 2002 in order to eliminate any provision that could create an obstacle to the free circulation of dry cleaning machines.
