'Technical approval of highway structures on motorways and other trunk roads' (DOT EP ref: 026/94/EC)

6. Products Concerned

Lighting columns, mechanical & electrical products and other proprietary manufactured structures/products

7. Notification Under Another Act

-

8. Main Content

This Departmental Standard sets out the procedure for the technical approval of highway structures and the responsibilities of the parties involved. The procedures are managed by Technical Approval Authorities (TAA's) in conjunction with the overseeing departments acting on behalf of the respective highway authorities for trunk roads in England, Scotland, Wales and Northern Ireland. The procedures are mandatory for motorways and other trunk road schemes but they are recommended for all public highway schemes.

Note: Mutual recognition clause to be inserted in document.

8b The United Kingdom would like to be informed by other Member States of their own standards or regulations offering an equivalent level of safety and security.

9. Brief Statement of Grounds

The technical approval procedure is required to ensure that highway structures are designed or assessed to appropriate standards, represent value for money and provide safety under all circumstances of design, construction and use.
