4. Notification Number

2017/0374/F - I20

5. Title

Ministerial Order on pressure equipment and simple pressure vessels

6. Products Concerned

- Simple pressure vessels covered by Directive 2014/29/EU on the harmonisation of the laws of the Member States relating to the making available on the market of simple pressure vessels
- Pressure equipment covered by Directive 2014/68/EU on the harmonisation of the laws of the Member States relating to the making available on the market of pressure equipment

7. Notification Under Another Act

-

8. Main Content

Article R557-14-6 of the Environmental Code provides that an order should be issued implementing the provisions of the above-mentioned decree. The purpose of this implementing order is to establish the details of the applicable compulsory in-service inspection operations, according to the categories of equipment and according to the operator's decision whether to apply the standard fixed inspection method or to establish an inspection plan to adapt the inspection operations to suit the equipment's actual installation and operation conditions. It is intended to repeal the Ministerial Order of 15 March 2000, as amended, as well as 30 other ministerial orders.

The body of the draft order refers to annexes for the technical aspects. In particular, these include references to the applicable professional technical specifications and guidelines, as well as applicable decisions and circulars. The Hazardous equipment and network safety bureau [Bureau de la sécurité des équipements à risque et des réseaux - BSERR] wanted to simplify this documentary burden, especially in the case of Annex 3, retaining only those documents essential to the various stakeholders, whether manufacturers or inspection bodies.

Article 7 of Decree No 2016-1925 of 28 December 2016 on the in-service monitoring of pressure vessels sets the date of entry into force provided for under this decree no later than January 2018. Article 37 of this draft order sets the date of entry into force as 1 January 2018.

9. Brief Statement of Grounds

Decree No 2016-1925 of 28 December 2016 on the in-service monitoring of pressure vessels adds to Book V, Title V, Chapter VII, section 14 of the Environmental Code by establishing the main requirements for the in-service monitoring of pressure vessels not yet covered by previous codification texts (pressure equipment, simple pressure vessels and nuclear pressure equipment).

Article R557-14-6 (Article 1 of the above-mentioned decree) of the Environmental Code provides that an order

be issued implementing the provisions of the above-mentioned decree.

Law No 2013-619 of 16 July 2013 introduced provisions relating to pressure vessels into the Environmental Code and repealed the Law of 28 October 1943.

10. Reference Documents - Basic Texts

Reference(s) to basic text(s): - Directive 2014/68/EU of 15 May 2014 on the harmonisation of the laws of the Member States relating to the making available on the market of pressure equipment

- Directive 2014/29/EU of 26 February 2014 on the harmonisation of the laws of the Member States relating to the making available on the market of simple pressure vessels

- Articles L557-1 to L557-61 of the Environmental Code

- Articles R557-1-1 to R557-5-5, R557-9-1 to R557-10-8 and R557-14-1 to R557-14-8 of the Environmental Code

11. Invocation of the Emergency Procedure

No

12. Grounds for the Emergency

-

13. Confidentiality

No

14. Fiscal measures

No

15. Impact assessment

-

16. TBT and SPS aspects

TBT aspect

No - the draft has no significant impact on international trade.

SPS aspect

No - the draft has no significant impact on international trade.

No - the draft is neither a sanitary nor phytosanitary measure.
