////

5. Title

EQUIPMENT intended for the transmission of data, remote control, telemetry, remote alarms via radioelectronic channel used in private radioelectronic stations functioning on frequencies between 30 and 500 MHz.

6. Products Concerned

The products in question are radioelectronic equipment intended for teleprocessing functions.

7. Notification Under Another Act

-

8. Main Content

Technical approval regulation dealing with minimum characteristics to which equipment must conform which is intended either for transmission of data or for teleprocessing functions provided by radioelectronic channels using assigned frequencies between 30 and 500 MHz.

9. Brief Statement of Grounds

The results of tests carried out in designated laboratories by other Member States will be acceptable, in accordance with Article R20-18 of Decree No. 92116 of 4 February 1992 concerning the approval of telecommunications terminal equipment, their conditions of connection and the acceptance of installers.
