8. Main Content

The draft implements the updating of the current legislation
on these products, resulting from the technical and
commercial innovations in this sector.

It defines the scope of application and the denominations and
classification of the products.

It sets the preliminary requirements for sale of the products, as follows: entry in the general hygiene register for food and notification of the formula to the toxicological information department.

It sets the general conditions which must be complied with by the industries related to the products concerned by the regulations and by all personnel, raw materials and the finished products.

It sets the packaging and labelling conditions for the products and the conditions of storage, transport and sale.

It governs certain aspects relating to foreign trade.

Finally, it establishes the undergoing of official sampling and testing methods approved by current provisions or recognised by international bodies. It establishes the powers and the penalty rules.

9. Brief Statement of Grounds

The need to bring current legislation on detergents in line with the provisions established on the classification, packaging and labelling of dangerous preparations, and also on the classification, packaging and labelling of dangerous substances.
