5. Title

TR 2503 Draft 2 (C) - Performance Specification for Pedestrian Facilities at Temporary Stand-alone Traffic Signals

6. Products Concerned

Temporary pedestrian control equipment

7. Notification Under Another Act

-

8. Main Content

This document specifies the performance requirements of two-phase Traffic Signal Controllers used to control signals at temporary pedestrian crossings on roads other than motorways. Temporary pedestrian control equipment that meets this specification will be approved for use on UK roads. The UK will fulfil its obligations under Article 12 of Directive 98/34/EC when this specification is officially published.

9. Brief Statement of Grounds

This document is produced to enable the temporary pedestrian control equipment to comply with Direction 56 of the Traffic Signs Regulations & General Directions 2002, SI 2002 No.3113, which requires traffic control equipment to be approved by the Secretary of State. TR 2503 Version 'A' was notified to the Commission on 19 August 2005. Version 'B' (which was largely identical to Version 'A' but corrected a minor typographical error) was not notified, but after detailed correspondence with the Commission it is now replaced with TR 2503C which is similar to Versions 'A' and 'B' and includes the comments made by the Commission for specifications of this kind.

TR 2503 Draft (2) replaces Draft 1 notified to the Commission on 1 August 2007 and includes amendments to technical detail as well as changes to the content of the 'normative' and 'informative' sections of the specification.
