7. Notification Under Another Act

-

8. These draft Regulations set out the procedure for obtaining approval of the pattern of construction and manner of installation of meters to be used for ascertaining the quantity of electricity supplied by an electricity supplier to a customer. Equivalent standards and testing have been recognised in the draft.

The UK will fulfil its obligation under Article 12 of Directive 83/189/EEC (as amended) when these Regulations are officially published.

9. Brief Statement of Grounds

These Regulations will be made following the coming into operation of Schedule 7 to the Electricity (Northern Ireland) Order 1992 which provided for the privatisation of the Northern Ireland electricity industry. The Schedule will require meters to be approved in accordance with Regulations. These Regulations are designed to meet that requirement.
