5. Title

Ministerial Decree regulating the State metrological control of counting and inspection systems for the influx of people in crowded public premises.

6. Products Concerned

The proposal affects counting and inspection systems for the influx of people in crowded public spaces.

7. Notification Under Another Act

-

8. Main Content

The notified technical regulation lays down specific regulations from the State metrological control's point of view as laid down by Article 7 of the Metrology Act No 3 of 18 March 1985 for systems that allow the control of the influx of people in crowded public premises to be established, thereby ensuring the legislative compliance of applicable places with high concentrations of people and the powers used by the authorities for its compliance.

The draft includes the implementation of the following metrological controls to the aforementioned systems:

- assessment of conformity to the essential metrological and technical requirements for their marketing and commissioning (model approval, initial inspection),
- inspection following repair or modification and periodic inspection for those in service.

Key words in the draft:

- Control of Public Capacities
- People Counting System
- Legal Metrological Control

9. Brief Statement of Grounds

Its implementation is justified from the point of view of ensuring the control and influx of people in those premises where a specific public crowd capacity has been laid down by regulations, in particular, those premises with a high influx that may result in a certain degree of insecurity to people and public order.
