8. Main Content

this draft decree is intended to define the rules governing
quality, grading, presentation and labelling with which new
potatoes and potatoes for storage destined for human
consumption must comply after processing and packaging.
The draft has been drawn up in accordance with the format of
the type of standard of the European Economic Commission of
the UNO (EEC/UNO) which applies to fresh fruit and vegetables
restricted by the common standards of quality of the European
Economic Community, and on the basis of the 23 EEC/UNO
standards directly applicable to these 2 products.

9. Brief Statement of Grounds

the draft text replaces the decree of 31 October 1961 and is
intended to bring the rules governing marketing into line
with trends in production, sale and consumption, in agreement
with professionals. It aligns national regulations with
EEC/UNO standards as specified by the definition of two
different categories of quality, as are to be found in all
standards which apply to fresh fruit and vegetables.
