8. Main Content

8.1 The objective of the draft Regulation on fire prevention in the Autonomous Community of Madrid is to regulate a series of measures intended to prevent fires. It essentially deals with construction requirements for buildings, as well as the mandatory adoption of specific technical solutions with regard to the evacuation of buildings, smoke extraction, dimensions and measurements of specific parts of buildings affected (lifts, staircases, etc.), and addresses the problem of fires in a range of locations with special characteristics (garages, schools, homes, etc.)

8.2 This provision has been subject to the procedure for the provision of information in the field of technical standards and regulations, and rules and regulations relating to information society services, laid down in Directive 98/34/EC of the European Parliament and the Council of 22 June 1998, as amended by Directive 98/48/EC of 20 July 1998, and in Royal Decree No 1337 of 31 July 1999 incorporating these Directives into Spanish legislation, and in Decree No 244 of 16 November 2000, of the Autonomous Community of Madrid, which transposes the abovementioned Directives to the framework of the Autonomous Community.

9. Brief Statement of Grounds

The first additional provision of Law No 14 of 28 December 1994, regulating fire prevention and fire-fighting services and rescue operations in the Autonomous Community of Madrid, lays down the Spanish government's obligation to adopt the regulation on fire prevention.

10. Reference Documents - Basic Texts
