8. Main Content

Pursuant to Law 10/2006 on organic food and farming in the Basque Country, a set of technical standards is proposed for organic farming in the Basque Country relating to breeding of the common rabbit (*Oryctolagus cuniculus*).

This document applies to rabbit breeders who wish to market their products as organic, and includes specific requirements relating to the following areas:

- origin of animals,
- conversion of animals,
- accommodation and breeding methods,
- animal management (covering, nesting, weaning)
- feeding,
- prophylaxis and veterinary treatments.

9. Brief Statement of Grounds

The set of technical standards for organic rabbit breeding has been established to guarantee compliance with the standards of production, importing and marketing established in Community regulations relating to organic farming. The standard complements the provisions of Regulation 889/2008.
