8. Main Content

The draft amends the Order of 19 October 2006 concerning the use of processing aids in the manufacture of certain foodstuffs.

9. Brief Statement of Grounds

The draft authorises a new usage for peracetic acid, which has been passed by the French food standards agency (AFSSA) (2010-SA-0013).

It authorises two enzymes already evaluated in Denmark, on the basis of the principle of mutual recognition.

It aligns the usage conditions for sodium hypochlorite with the provisions for chlorine gas for washing fruit (range 4) on account of the chemical equivalence of the two procedures.

It sets out the conditions for informing consumers and labelling reconstituted products using transglutaminase in response to the request made by the European Commission (Notification 2009/0426/F).

10. Reference Documents - Basic Texts
