## 8. Main Content

The notified Order is a regulation implementing the Decree on equipment for recording Road Traffic Regulations offences (Notification No 2003/286/F). It concerns the administrative conditions and assessment techniques of the conformity of fixed devices (integrated into road infrastructures) intended to record vehicles running red traffic lights. This equipment is not subject to CE marking pursuant to Directive 89/106/EC on construction products being road equipment (unauthorised equipment). It is covered by the ministerial type-approval procedure established in Article R 119-5-II(b) of the Highway Regulations Code (No 2001/435/F). The notified regulation lays down an equivalence procedure (mutual recognition) for equipment originating in the European Union and the European Economic Area in implementation of Article R 119-5-III of the Highway Regulations Code - equivalence clause - (No 2001/435/F).

## 9. Brief Statement of Grounds

Type-approval of this new type of road equipment is one of the essential conditions of the proper functioning of the government's automatic control-penalty policy with respect to the legal validity of the recording of the offence and safety and proper functioning requirements. The automatic control of Road Traffic Regulations offences is a major component of French road safety policy.
