5. Title

The Bovine Spongiform Encephalopathy (Amendment) Order (Northern Ireland) 1996

6. Products Concerned

Mammalian meat and bone meal and feed containing mammalian meat and bone meal.

7. Notification Under Another Act

Not applicable.

8. Main Content

The proposed order consolidates the Bovine Spongiform Encephalopathy Order 1991, including the amendments made thereto, and makes further amendments. In particular it re-enacts the provisions of the Bovine Spongiform Encephalopathy (Amendment) Order 1996, which prohibited the sale or use of mammalian meat and bonemeal as a constituent of animal feed. (A copy of this legislation was sent to the Commission on 18 April).

The proposed Order would prohibit, as from 1 August, the keeping of mammalian meat and bone meal or feed containing it on premises where livestock or equine animals are housed or fed, or where feeding stuffs for such animals is prepared or stored. 'Livestock' is defined as any creature (including a fish) kept for production of food, wool, skin or fur, any creature (excluding a dog) for use in farming of land, and any equine animal.

The proposed Order would also require all producers, importers, transporters and consumers of mammalian meat and bonemeal to keep records of the use they make of the material, and the persons and places to whom and which they consign it, to minimise the possibility of it being diverted to illegal use.

The proposed Specified Bovine Material (No 2) Order (Northern

Ireland) 1996 (the subject of a separate notification) and the Bovine Spongiform Encephalopathy (Amendment) Order (Northern Ireland) 1996 introduce similar provisions in Northern Ireland.

9. Brief Statement of Grounds

To remove the risk of cross-contamination of animal feed by mammalian meat and bone meal.
