#### **4. Notification Number**

2009/0703/F – SERV50

#### **5. Title**

Order establishing the conditions for certification of video surveillance system installers

#### **6. Products Concerned**

Organisation of the conditions for the certification of video surveillance system installers under Law 95-73 of 21 January 1995.

#### **7. Notification Under Another Act**

-

#### **8. Main Content**

In France, the systems installed on public roads or in places open to the public must meet the technical requirements defined in ministerial order NOR: IOCD0762353Z of 3 August 2007. This is one of the conditions that must be met in order to obtain administrative approval for the installation of this type of system.

The introduction of a certification system for installers by a certifying company approved in this sector by COFRAC will allow compliance with these technical requirements to be monitored.

COFRAC can approve companies that satisfy the conditions for certification appended hereto, particularly the technical requirements set down in the order of 3 August 2007.

#### **9. Brief Statement of Grounds**

A system can only be approved if it is found to meet the technical requirements following an inspection by a departmental commission.

The fact that an installer is certified by a certifying company approved by COFRAC will make it easier for the technical aspects of each case to be reviewed, as it can be presumed that these technical requirements are met.

This certification will also reassure the client regarding the quality of the system.
