8. Main Content

UK-MPT 1417 identifies those classes and options of equipment in ETS 300 630 and ETS 300 631 which will be permitted in the licensing of Point-to-Point radio links in the UK. These are for the purposes of maximising spectrum utilisation.

UK-MPT 1417 replaces the former National Technical Regulation MPT 1417. If the base standard, ETS 300 630 or ETS 300 631 is amended, UK-MPT 1417 will be revised to follow current developments.

Recognition of equivalent standards and testing is contained in the notified draft.
