8. Main Content

The departmental standard sd2 introduces the highway construction details (hcd). use of the standard is mandatory on all trunk roads, including motorways, with individual drawings incorporated into the contract as appropriate.

The hcd cover standard details and cross sections, which are to be used as the contract demands. They are used by other overseeing departments ie the scottish development department, the welsh office and the department of environment northern ireland. It is envisaged that the overseeing departments will issue separate standards to introduce hcd within the areas of their jurisdiction.

9. Brief Statement of Grounds

the departmental standards and the hcd provide drawings and layouts of various features used in the construction of highways in the uk. some drawings detail products and compliment the specification for highway works, which is the subject of a concurrent notification.
