#### 8. Main Content

MPT 1717 identifies those classes and options of equipment in  
ETS 300 630 and ETS 300 631 which will be permitted in the  
licensing of Point-to-Point radio links in the UK. These are  
for the purposes of maximising spectrum utilisation.

MPT 1717 replaces the former National Technical Regulation  
MPT 1417 and the UK-MPT 1417 which was notified to the  
European Commission (98/0112/UK). If the base standard, ETS  
300 630 or ETS 300 631 is amended, MPT 1717 will be revised  
to follow current developments.

Recognition of equivalent standards and testing is contained  
in the notified draft.

The UK will fulfil its obligation under Article 12 of  
Directive 98/34/EC when these Regulations are officially  
published.

#### 9. Brief Statement of Grounds
