#### 4. Notification Number

2000/0072/UK

#### 5. Title

The Measuring Equipment (Capacity Measures) (Amendment) Regulations 2000

#### 6. Products Concerned

Refillable cosmetic containers and 70 millilitre local and working standard capacity measures used by local authority Trading Standards Departments.

#### 7. Notification Under Another Act

-

#### 8. Main Content

The proposed Regulations will be made at the same time as the Weights and Measures (Intoxicating Liquor) (Amendment) Order 2000 (being notified separately) in order that the 70 millilitre measures that will be permitted by that Order for the purposes of measuring intoxicating liquor may be tested by the means of 70 millilitre local and working standards which will be held by Trading Standards Departments. The proposed Regulations will transfer the disapplication of refillable cosmetic containers from a set of Regulations which no longer apply to capacity measures, to a set of Regulations which do apply to such measures.

The UK will fulfil its obligation under Article 12 of Directive 98/34/EC (as amended) when these Regulations are officially published.

#### 9. Brief Statement of Grounds

Since 70 millilitres are separately being introduced for the purposes of measuring intoxicating liquor on licensed premises, those responsible for ensuring that the measures meet with the requirements of legislation need to have available for their use 70 millilitre testing measures. The transferral of the prescription of refillable cosmetic containers is intended to make them subject to legislation which has the appropriate application.
