The Specified Animal Pathogens (Amendment) (England) Order 2009.

6. Products Concerned

Specified Animal Pathogens.

7. Notification Under Another Act

8. Main Content

The purpose of the Specified Animal Pathogens Order 2008 (SAPO) is to ensure that specified animal pathogens (i.e. the animal pathogens listed in the Schedule to the Order), most of which are exotic to this country, are held and worked with under conditions that prevent their accidental release from the facilities in which they are held. This prevents the spread of animal diseases which are not endemic and which, if introduced, would cause serious diseases in livestock and economic loss to the livestock industry. This Amendment Order updates the list of specified animal pathogens by adding Porcine Reproductive and Respiratory Syndrome virus (genotype 2) to Part 1 of Schedule 1 to SAPO. The listed pathogens are all subject to controls under the Order.

9. Brief Statement of Grounds

The Schedule to SAPO has not been revised since 2006. Since that time, a new exotic pathogen has emerged which, if it was accidentally released, would have the potential to cause severe animal health and economic consequences to the UK pig industry. The attached draft Amendment Order updates the Schedule to include the new pathogen.
