8. Main Content

This document describes the document contained within the Traffic Systems and Signing Registry, as well as providing overarching statements on mutual recognition and gives context for TSS Registry documents. It also sets out criteria by which departures from these standards may apply.

The UK will fulfil its obligation under Article 12 of Directive 98/34/EC when these regulations are officially published.

9. Brief Statement of Grounds

The Highways Agency requires its motorway communication equipment to meet, including Quality, Environmental, Hardware Design, Electrical, Software/Firmware, Safety, Reliability, Installation, Maintenance and Disposal Requirements.

The purpose of the Highways Agency (HA) publishing standards and specifications is to ensure equipment and services procured meet HA requirements and are compatible with existing HA systems. These standards and specifications are the mechanism used by the HA for specifying products and services for procurement, except for items of a "one off" nature which could be specified within the specific contract.

This specification has been produced to provide suppliers with the Highways Agency's requirements.
