#### **8. Main Content**

This draft Order is intended to lay down the list of processing aids that may be used in foodstuffs for human consumption.

The processing aids that appear in this Order have all received a favourable opinion from the French Higher Public Health Council and the AFSSA.

Processing aids on which the AFSSA has issued an opinion since 1 January 2000 have been included in Annex I-A together with processing aids authorised on the basis of Community texts (Directive on fruit juices, Directive on lactoproteins and Directive on extraction solvents).

The authorisation granted does not include an expiry date for these processing aids.

Processing aids on which the French Higher Public Health Council and the National Medical Academy have issued an opinion are listed in Annex I-B. It is intended that these authorisations will be re-examined within a maximum of 10 years.

The enzymes that are intended for Community harmonisation have been grouped together in Annex II in order to make it easier to amend the text when the Community provisions are adopted.

Decree No 2001-725 of 31 July 2001 relating to processing aids that may be used in the manufacture of foodstuffs for human consumption (notified under No 99/0243/F), serves as the legal basis for this draft Order and contains a mutual recognition clause.

#### **9. Brief Statement of Grounds**

This Order also specifies the purity criteria for processing aids.
