8. Main Content

Descriptions of the transmission networks required for motorway communications. Details on the design and requirements of transmission stations. Explanation of the importance of maintaining the operational integrity of the network.

9. Brief Statement of Grounds

The measure proposed is advice prepared by the United Kingdom Department of Transport for its own use and for the use of other public road providers. It advises on the criteria for the provision of road traffic control equipment and provides general guidance on the characteristics, installation layout and functions of the equipment. The purpose of the measure is to ensure a consistent level of provision of road traffic control equipment throughout the UK road network for the benefit of the road user whilst making the most effective use of public money.
