5. Title

The Producer Responsibility Obligations (Packaging Waste) Regulations (Northern Ireland) 2007

6. Products Concerned

Packaging waste - glass recycling by re-melt targets.

7. Notification Under Another Act

- Directive 94/62/EC on packaging and packaging waste

8. Main Content

These draft Regulations amend Schedule 2 to the Producer Responsibility Obligations (Packaging Waste) Regulations (Northern Ireland) 2007 by substituting new waste packaging and recovery targets for the years 2012 to 2017 and an amended formula for the calculation of the amount of glass packaging waste that a producer must recycle by re-melt. The amended formula reflects government's express intention and policy and ensures that the glass recycling by re-melt target is applied to a producer's glass recycling obligation and not his total obligated glass tonnage.

9. Brief Statement of Grounds

The Producer Responsibility Obligations (Packaging Waste) Regulations (Northern Ireland) 2007 as amended set waste packaging recovery and material specific recycling targets for the years 2012 until 2017; this includes a split target for glass waste by end use. This proposed draft Regulation is required to amend the glass recycling by re-melt formula currently set down in paragraph 3(4) of Schedule 2 to the 2007 Regulations to ensure that the re-melt target for glass is applied to a producer's glass recycling obligation. The current formula applies the re-melt target for glass to a producer's total obligated glass tonnage and this results in a significantly higher glass re-melt burden for producers which does not reflect the original policy intention. A split target for glass by end use achieves the best environmental outcome from waste glass recovery processes and reduces, over time, the tonnage of waste glass that is recovered into aggregates.
