5. Title

Decree establishing safety and reliability requirements for chemical breath testers intended for use prior to driving

6. Products Concerned

Chemical breath testers intended for use prior to driving

7. Notification Under Another Act

-

8. Main Content

The purpose of the draft text is to establish reliability and safety requirements for chemical breath testers intended for use prior to driving, particularly in order to preclude the possibility that an erroneous reading might lead to the decision to drive under the influence of alcohol with a breath alcohol concentration in excess of the limit values established in point I of Article R. 234-1 of the French Highway Code.

9. Brief Statement of Grounds

The draft text is motivated by interests of public safety, more specifically road safety. This measure is intended to preclude the possibility that an erroneous reading might lead to the decision to drive under the influence of alcohol with a breath alcohol concentration in excess of the limit values established in point I of Article R. 234-1 of the French Highway Code.

The requirements set are proportionate to the desired objective: they apply only to breath testers intended for use prior to driving and relate to the reliability of these devices and consumer information. Finally, these requirements are non-discriminatory in that they set a result to be achieved and the methods of certifying the conformity of devices in accordance with the principle of mutual recognition.

10. Reference Documents - Basic Texts

No basic texts available

11. Invocation of the Emergency Procedure

No

12. Grounds for the Emergency
