4. Notification Number

2002/152/E-TOOT

5. Title

Draft Ministerial Decree classifying new important repairs and amending Annexes I and II to Royal Decree No 736 of 8 July 1988.

6. Products Concerned

Technical and administrative requirements that new vehicles or vehicles already in service must meet in order to be authorised for repair of certain characteristics which, by their nature, affect type approval, road safety and environmental protection.

7. Notification Under Another Act

-

8. Main Content

This draft classifies fourteen new repairs that could be authorised and that are necessary in order to satisfy the demands of the transport sector. Similarly, Annex I thereto includes the technical conditions to be met by vehicles that have been repaired or are undergoing repairs in order to continue to meet the safety conditions and environmental protection conditions considered as a minimum for driving on public roads.

9. Brief Statement of Grounds

The transport sector is becoming increasingly specialised. The characteristics of mass-produced vehicles do not always meet the real needs of users. It is therefore necessary to introduce certain repairs to vehicles so that they comply with the user requirements regarding service.

10. Reference Documents - Basic Texts

Royal Decree No 736 of 8 July 1988, regulating the handling of important repairs to road vehicles and amending Article 252 of the Traffic Code (Spanish Official Gazette No 170 of 16 July 1988)

11. Invocation of the Emergency Procedure

No

12. Grounds for the Emergency

-

13. Confidentiality

No

14. Fiscal measures

No
