8. Main Content

The draft Decree specifies that, under Decree No 2010-1379 of 12 November 2010 concerning on-demand audiovisual media services, the contribution of an on-demand audiovisual media service to the development of the production of audiovisual works may be pooled with television services pertaining to the same group. This pooling is thus implemented under the conditions provided for in Decree No 2010-747 of 2 July 2010 relating to television services' contribution to the production of cinematographic and audiovisual works broadcast terrestrially and Decree No 2010-476 of 27 April 2010 relating to the cinematographic and audiovisual contribution of television service producers and to producers of radio services distributed by networks not using frequencies assigned by the French Higher Audiovisual Council (CSA).

9. Brief Statement of Grounds

The combined application of, firstly, Decree No 2010-747 of 2 July 2010 and Decree No 2010-476 of 27 April 2010, which together establish the contribution of television services to the production of audiovisual works and which permit this contribution to be pooled with other services (television and on-demand audiovisual media services) produced by the same group of companies, and secondly Decree No 2010-1379 of 12 November 2010, which establishes the contribution of on-demand audiovisual media services to the production of audiovisual works, could be interpreted as implying that these contributions are additional for the on-demand audiovisual media services.

The aim of the draft Decree is to remove all ambiguity by specifying that, should the contribution of an on-demand audiovisual media service be pooled with that of a television service, the obligation to which the on-demand audiovisual media service is subject under Decree No 2010-1379 of 12 November 2010 is met in the context of this pooling.
