8. Main Content

Amendment of Schedule 2 of the Producer Responsibility Obligations (Packaging Waste) Regulations (Northern Ireland) 2007. The amendments are required to introduce new recovery and recycling targets for paper, wood, steel and aluminium and overall recovery and recycling for the period 2018 to 2020.

9. Brief Statement of Grounds

The existing business targets for 2013-2017 were set following consultation carried out in 2011 and the announcement of the final targets in Budget in March 2012. The targets were set, in Regulations, using the best evidence available from business at the time. Following publication of the GlassFlow report, which investigated the data used to calculate the business targets, the glass targets were revised in 2014. In 2015 following publication of the PlasticFlow report the plastics targets were also amended for 2016-17, along with the establishment of new targets for plastic and glass for 2018-20. The Statutory Regulations were made in January 2017.

The business targets for the other materials (paper, steel, aluminium and wood), as well as the overall recovery and recycling targets, expire in 2017. The Packaging Directive requires member states to achieve a specified minimum recovery and recycling rate each year until such time as the Directive is amended. These regulations ensure continued compliance with the Packaging Directive and delivery of domestic policy.
