5. Title

M 41-10 A: Class 3 fax.

6. Products Concerned

The products concerned are items of terminal equipment which include the class 3 fax function.

7. Notification Under Another Act

Draft approval regulation concerning terminal equipment which includes the class 3 fax function.

8. Main Content

This draft specification complements the specifications of analogue access to the public switched telephone network: it makes it possible to guarantee the correct disconnection of fax messages, under the necessary requirement 4f of Directive 91/263/EEC.

It does not guarantee the end-to-end interoperability of the class 3 fax service.

9. Brief Statement of Grounds

This draft will replace specification ST/CNR/SCG/13 (enclosed).

The French Authorities draw the Commission's attention to the fact that the document ST/CNR/SCG/13 has not been notified as it was published before 1985: however, the Commission was informed of its use by the order dated 2 October 1992 (enclosed in the Annex).
