**8. Main Content**

This standard aims to define the construction principles, the operating conditions, and the methods and means of testing of instruments, known as 'kinemometers', which are designed to measure the speed of motor vehicle traffic.

**9. Brief Statement of Grounds**

This draft applies to kinemometers designed to be used to measure, both from a fixed installation and when sited in a stationary or moving vehicle, the speed of motor vehicle traffic. The draft also applies to complementary devices designed to print or register the results of the measurements taken by these instruments.
