The Producer Responsibility Obligations (Packaging Waste)(Amendment) Regulations (Northern Ireland) 2010

6. Products Concerned

Packaging and packaging waste

7. Notification Under Another Act

- Directive 94/62/EC on packaging and packaging waste

8. Main Content

Amendment of Schedule 2 of the Producer Responsibility Obligations (Packaging Waste) 2007. The changes are to introduce recovery targets for 2011-2020 and changes to material specific targets for 2011-2020. There are also a number of other amendment to introduce the specific technical changes.

9. Brief Statement of Grounds

Existing UK business targets currently cease in 2010. In order to ensure ongoing compliance with the Directive, and meet the UK national policy objectives, new recovery targets and associated material specific recycling targets have been proposed. The proposal would bring the overall recycling rate to around 72% by 2020 and bring significant environmental benefit.

The other proposed changes relate to the transparency of the funding flows of the existing producer responsibility system for packaging. Due to the way in which the UK has transposed the Directive requirements, the flow of funding provided by producers, and its impact, is not always apparent. The proposed amendments will provide greater transparency for producers, Local Authorities and waste handlers.
