5. Title

Order on the performance of and rules for commissioning permanent traffic lights (three-colour signals) subject to CE marking

6. Products Concerned

Permanent three-colour traffic lights

7. Notification Under Another Act

-

8. Main Content

The draft regulation notified lays down the obligations of contracting authorities for the entire road network with regard to the use of permanent traffic lights (three-colour lights) subject to CE marking pursuant to Directive 89/106/EEC. To this end, it establishes the minimum performance categories required, based on Harmonised European Standard NF EN 12368, for each technical characteristic given in Annex ZA-1 of this standard. These regulatory provisions are taken pursuant to Article 3.2 of Directive 89/106/EEC for the purposes of the essential safety requirements applied to the structures. This regulation is an Order implementing the Decree of 10/10/2002 on road equipment (No. 2001/435F) amended by the Decree of 1 June 2004 (No. 2003/286 F).

9. Brief Statement of Grounds

The motivation for creation of this regulation lies in the need to establish necessary safety performance levels for road structures throughout the country with regard to traffic lights, principally taking into account different safety conditions and to have uniform implementation of CE marking for different types of road networks.
