5. Title

Draft decree approving the Autonomous Community of the Canary Islands' regulation of external betting.

6. Products Concerned

External betting is understood as a gaming activity where a sum of money is bet on a previously determined sporting or other event whose result is outside of the control of the participants, which pays a refund or a greater amount if successful, and which takes place in establishments other than the premises where the event is held.

7. Notification Under Another Act

-

8. Main Content

The Regulation to be adopted regulates external betting in the area of sport, competitive activities and other activities in the Canaries and indicates the requirements and administrative, technical, electronic and computer documents to be provided by those enterprises wishing to obtain prior approval to organise and operate such betting. Moreover, the Regulation covers the conditions and procedures for placing bets; the requirements and conditions to be met by establishments taking bets; the necessary technical elements for betting that must receive prior approval from the body responsible for the administrative management of gaming; the regulations applied to the installation of gaming terminals and machines and the inspection and penalty system.

9. Brief Statement of Grounds

This draft legislation partially implements the Canarian Law 8/2010, of 15 July, on Gaming and Betting that broadened the scope of betting to include lucha canaria [traditional Canarian wrestling] and any sporting or other event, which takes place in establishments other than the premises where the event is held, for which reason a specific legislative and technical framework, which includes the guarantees required by gaming standards, must be laid down, incorporating such betting within the Autonomous Community of the Canary Islands' structure for authorised gaming.
