8. Main Content

This decree provides a clearer legal framework, in the absence of any harmonisation of the legal rules at European level, concerning the placement on the market and use of fertilisers and growth mediums. This draft modernises the provisions laid down by the Rural and Marine Fisheries Code on fertilisers and growth mediums (MFSC) before the draft European Regulation comes into force. Fertiliser adjuvants are added.

The draft decree is proposed in application of the draft order. The draft decree amends Chapter V of Book II of the regulatory part of the Rural and Marine Fisheries Code. Chapter V, with its new title "placement on the market and use of fertilisers, growth mediums and their adjuvants", consists of four sections. This makes it more readable, ensuring coherence between the regulatory provisions applicable to the input, compliance with European Union law governing mutual recognition and the free movement of goods. It specifies the methods by which authorisation can be given for the placement on the market of fertilisers and growth mediums and adjuvants, as well as controls and sanctions.

9. Brief Statement of Grounds

The draft decree is proposed in application of the draft order relating to the placement on the market and use of fertilisers, growth mediums and their adjuvants (approved by LAW No. 2014 - 1170 of 13 October 2014 on the future of agriculture, food and forests: Article 55).

The draft decree gives better visibility of the procedures, applicable rules and terms for the placement on the market and use of fertilisers and growth mediums. The draft decree ensures legal security by establishing controls and sanctions in the event of non-compliance with the regulation.
