The Order extends an Agreement that aims to improve the quality of certain varieties of table grapes produced in France throughout the marketing year. It establishes the maturity requirements defined by a refractometric index. This is to ensure the maturity of the marketed fruits when sold to consumers by the setting of minimum sugar content higher to that established by the regulation.

Keyword: grape - sugar level - quality - maturity - marketing - standardization

#### **9. Brief Statement of Grounds**

This Order makes mandatory on French territory the rules defined in the inter-branch agreement. This is a quality procedure that concerns the fresh fruit and vegetables sector.
