5. Title

Order relating to the nutritional quality of meals served in schools

6. Products Concerned

Food intended for use in school meals

7. Notification Under Another Act

-

8. Main Content

This Order lays down the nutritional requirements for the daily composition of meals served in schools, the frequency of service of meals based on a minimum number of successive meals and the size of portions. The regulations defined aim to reduce the proportion of simple glucosides and lipids and to increase the proportion of fibres, vitamins, iron and calcium. It also lays down the requirements mentioned in a Decree relating to the same subject.

9. Brief Statement of Grounds

Child obesity is a major hazard to public health. Good food practices are gained at school where many young people obtain their meals. Straightforward recommendations have so far not proven effective. The adoption of these requirements will aid in standardising the implementation of food regulations in the composition of menus and in improving the quality of meals served in schools.
