3. Originating Department

Department of the Environment, Northern Ireland

4. Notification Number

2010/0106/UK - S50E

5. Title

Control of Pollution (Oil Storage) Regulations (Northern Ireland) 2010

6. Products Concerned

Above ground oil storage containers with a storage capacity of more than 200 litres located on industrial, commercial and institutional/residential sites.

7. Notification Under Another Act

-

8. Main Content

Key words: Above ground oil storage

The proposed Regulations aim to reduce and prevent pollution of the aquatic environment from any inadequate above ground oil storage facilities. They will codify existing good practice and will set minimum design standards for new and existing above ground oil storage facilities, providing a legal requirement for the standards to be met. A main requirement will be for the storage container to have a secondary containment system to ensure that any leaking or spilt oil is contained.

9. Brief Statement of Grounds

The Water Framework Directive (WFD) (2000/60/EC) is implemented in Northern Ireland through River Basin Management Plans. Programmes of Measures have been developed to ensure the objectives of the WFD are achieved and included in these is a commitment to make these Regulations.

10. Reference Documents - Basic Texts

References of the Basic Texts: Annexes to this notification:

Water Framework Directive (2000/60/EC)

River Basin Management Plans, Programmes of Measures

11. Invocation of the Emergency Procedure
