8. Main Content

The Regulations set out the requirements to be met by pedal cycles at the point of sale. This includes the fitment of a bell and reflectors, marking of any applicable standards, the inclusion of assembly instructions and tools where assembly is required, and the need for hand operated brake levers to conform to current positioning conventions. The Regulations do not apply to bicycles previously supplied, a bicycle with a saddle which is less than 635 millimetres above ground level or a competition bicycle.

9. Brief Statement of Grounds

The regulations replace the Pedal Bicycles (Safety) Regulations 2003 and will harmonise pedal cycle construction by removing existing references to British Standards.
