8. Main Content

The Regulations amend the Fresh Meat (Beef Controls) Regulations concerning the Beef Assurance Scheme. The changes remove two restrictions so as;

- (i) to enable farmers who have used feed from mills which have not used mammalian meat and bone meal (MBM) in the last four years to join the scheme; and,
- (ii) to allow use of feed supplied from any mill in future.

9. Brief Statement of Grounds

At present it is a condition of registration under, and of continuing membership of, the Beef Assurance Scheme that any commercial mix of compound feedingstuffs used in the last four years must have come from a mill supplying ruminant rations only. This regulation removes this restriction, recognising that;

- (i) certain mills have not used MBM in the past four years and;
- (ii) since 1/8/96 no MBM has been present in feed for farm livestock due to other measures. (It remains a requirement that no MBM should have been fed to animals in the scheme).
