5. Title

Interim Advice Note 154/xx - Revision of SHW Clause 903, Clause 921 and Clause 942

6. Products Concerned

This document revises the specification for location of longitudinal surface joints and the initial texture depth for thin surface course systems and gives a specification for cold applied ultra thin surfacings.

7. Notification Under Another Act

-

8. Main Content

The document amends the requirements of the Specification for Highway Works Clause 903, Clause 921 and Clause 942 and associated notes for guidance to meet the specific requirements of the Highways Agency.

It revises the specification for location of longitudinal surface joints and the initial texture depth for thin surface course systems and gives the specification for cold applied ultra thin surfacings (CAUTS). Also included are notes for guidance (NG) for these specification clauses giving background and guidance to compilers of the contract specific requirements necessary to be supplied in conjunction with the notified specification clauses on specific contracts.

9. Brief Statement of Grounds

These requirements are needed to expand and clarify the choices of pavement repair options that may be used on the English strategic road network. The aim is to improve the efficiency of delivery of the maximum serviceable life of an existing pavement whilst maintaining it in a safe, serviceable and durable condition.
