### **4. Notification Number**

2013/0359/UK - B00

### **5. Title**

Manual of Contract Documents for Highway Works, Volume 1, Specification for Highway Works Series 100 – Preliminaries,

Appendix A - Quality Management Systems

Appendix B - Product Certification Systems

Appendix C - Certification for Proprietary Products

Appendix D - Statutory Type Approval

Appendix E - Type Approval / Registration

and associated

Manual of Contract Documents for Highway Works, Volume 2, Notes for Guidance for the Specification for Highway Works, Series NG 100 - Preliminaries

### **6. Products Concerned**

Products that are used for the construction and maintenance of highways works on the UK Strategic Trunk Road Network.

### **7. Notification Under Another Act**

-

### **8. Main Content**

The Specification for Highway Works (SHW) provides the general works information used by the UK Highways Agency and the UK Devolved Administrations for highway construction works on the UK Strategic Trunk Road Network.

The SHW Series 100 and accompanying Notes for Guidance Series NG100 address preliminaries works information in the SHW and associated Notes for Guidance to the SHW (NGSHW) respectively.

The SHW Series 100 gives the general requirements for products used for highway works, general testing requirements and matters associated with the establishment and execution of highway works.

The NGSHW Series NG100 gives guidance for those compiling the contract specific parts of the specification associated with the requirements given in SHW Series 100. The NGSHW includes templates for the numbered appendices for the contract specific specification compiler to use to give contract specific requirements. This ensures works information is presented in highway works procurement contracts in a consistent manner.

The UK will fulfil its obligation under Article 12 of Directive 98/34/EC when these regulations are officially published.

### 9. Brief Statement of Grounds

The use of the Specification for Highway Works is mandatory for the construction of all works on the UK Strategic Road Network. For application in the Devolved Administrations of the UK amendments are incorporated to take account of local conditions.

These documents introduce changes to recognise and comply with the requirements of the regulation EU No 305/2011 and other changes to reflect changes in requirements for maintenance and construction of highway works.
