5. Title

Ministerial Order establishing the State metrological control of recording thermometers intended for measuring the transport temperature of deep-frozen products.

6. Products Concerned

Temperature recorders.

7. Notification Under Another Act

-

8. Main Content

This Order aims to regulate phases A), B), C) and D) of the metrological control of temperature recorders which enable the measurement and recording of the air temperature inside containers used for transporting deep-frozen foodstuffs.

9. Brief Statement of Grounds

The Ministerial Order of the MINER [Ministry of Industry and Energy] of 7 July 1993, which incorporated Directive 92/1/EEC in our legislation, does not include the metrological requirements which must be met by temperature recorders of the air inside containers used for transporting deep-frozen products, for which reason our products have encountered

difficulties in being accepted in some Community countries.
This has prompted the publication of this Ministerial Order.
