### 5. Title

### 8. Main Content

The draft royal decree incorporates into the Spanish legal system Council Directive 2008/90/EC of 29 September 2008 on the marketing of fruit plant propagating material and fruit plants intended for fruit production. It also introduces the amendments required to update the rights of propagating producers to market fruit plants obtained in plant pots and to monitor the sanitary quality of CAC material.

### 9. Brief Statement of Grounds

The royal decree has been drafted in response to the need to incorporate Council Directive 2008/90/EC of 29 September 2008. Furthermore, the development of the production of certified nursery plants makes it advisable to extend the powers afforded to producers in the propagator category to include the production of certified material in all related phases, from the certified parent plants to the plant itself. New production technologies may give rise to new marketing techniques that need to be covered by existing regulations. Plants obtained in plant pots may be sealed and marketed in containers, ensuring the necessary traceability.
