5. Title

Order on the technical requirements for connection to the
public transport network of installation for the production
of electricity with an installed power less than or equal to
120 Mw.

6. Products Concerned

Electricity

7. Notification Under Another Act

-

8. Main Content

This order lays down the technical requirements to be
fulfilled by installations for the production of electricity
of an installed power less than or equal to 120 Mw within the
framework of their connections to the public transport
network.

9. Brief Statement of Grounds

It is appropriate to define the technical requirements allowing connection of installations for the production of electricity to the public network for the transportation of electricity, in order that these connections do not prejudice the management of the network.

10. Reference Documents - Basic Texts

- Amended Law of 15 June 1906 on the distribution of energy
- Amended Law of 8 April 1946 on the nationalisation of electricity and gas
- Amended Decree of 20 May 1955 regulating the relations between the establishments covered by articles 2 and 23 of the Law of 8 April 1946 and the autonomous producers of electricity
- Decree of 23 December 1994 approving the type specifications for the concession to Electricité de France of the general supply network for electricity
- First amendment of 10 April 1995 to the Convention of 27 November 1958 for the concession to Electricité de France, national service, of the general supply network for electricity
