4. Notification Number

2017/0191/E - N00E

5. Title

Draft Governing Council Decree developing basic legislation vis-à-vis low-voltage electrical installations and the verification of cases of fraud at certain gas and electricity supply points in Madrid.

6. Products Concerned

This draft concerns low-voltage electrical installations and certain gas and electricity supply points in Madrid.

7. Notification Under Another Act

-

8. Main Content

The aim is to regulate the periodic inspection procedure for this type of installation, lay down certain safety criteria for the implementation and legalisation of electrical installations, as well as other aspects relating to the verification of cases of fraud within the installation, equipment and systems used to measure the consumption of electricity and piped natural gas.

9. Brief Statement of Grounds

The current electrical regulation for industrial safety — the Low-Voltage Electrotechnical Regulation [Reglamento Electrotécnico para Baja Tensión – REBT], approved via Royal Decree 842/2002 of 2 August 2002 — incorporates for the first time the obligation that certain installations shall be subject to periodic inspection by an authorised inspection body within the scope of low voltage, in order to ensure that the safety conditions that served as a basis for the commissioning thereof are maintained.

Experience gained from management has shown that aspects of the current regulation laid down in REBT have been inadequately defined or their scope can be improved to be more in line with the objective to ensure the safety of persons and property when using electrical installations.

10. Reference Documents - Basic Texts

Reference(s) to basic text(s):

- Royal Decree 842/2002 of 2 August 2002 approving the Low-Voltage Electrotechnical Regulation (Notification 2001/159/E).
- Royal Decree 1110/2007 of 24 August 2007 approving the unified Regulation for metering points in the electricity system.
- Royal Decree 337/2014 of 9 May 2014 approving the Regulation on the technical conditions and security assurances for high-voltage electrical installations and its additional technical instructions (Notification

2012/703/E).

- Decree 111/1994 of 3 November 1994 regulating inspection and industrial control bodies and assigning them duties to verify compliance with the provisions and safety requirements for industrial installations in the event of a significant risk to persons, animals, property or the environment.
 - Decree 38/2002 of 28 February 2002 regulating regulatory control bodies for industrial installations in Madrid.
- The basic texts were forwarded with an earlier notification: 2001/159/E: 2012/703/E

11. Invocation of the Emergency Procedure

No

12. Grounds for the Emergency

-

13. Confidentiality

No

14. Fiscal measures

No

15. Impact assessment

-

16. TBT and SPS aspects

TBT aspect

No - the draft has no significant impact on international trade.

SPS aspect

No - the draft is neither a sanitary nor phytosanitary measure.
